

## VALUATION SCHEDULE

### **Valuation Included at “NO CHARGE” to Customer**

The standard liability protection on office moving is .60 cents per pound per article. This settlement is calculated by taking the weight of a damaged item times .60 cents, which equals your settlement amount. For additional valuation protection, Mover hereby alerts the Customer to the fact that additional valuation protection may be purchased from Mover or Customer’s present insurance carrier.

Please consider that if you upgrade your Valuation Policy on your move, you will be required to place a value on everything being moved. If you undervalue the cost of everything being moved, your policy will only cover the percentage of the value purchased. If you purchase a Full Value Protection Policy with no deductible, the cost will be calculated by multiplying \$9.50 per \$1000.00 worth of value times the value of goods moved; for example, if the value is \$250,000 **your valuation policy will cost you \$2,375.00**. There are options available in the form of a deductible option and depreciated value coverage, as quoted below. Please be aware that all high value items must be presented to the Mover for our review and documentation prior to the move taking place. Please review your options and make your selection.

### **Additional Valuation Protection Options – check one below:**

- \_\_\_\_\_ - **\$0.60 per pound per article (Included at “NO COST”)**
  
- \_\_\_\_\_ - **Depreciated Value Protection/no deductible**
